
Making a Difference **TOGETHER**

United Way of Winnipeg is at work in every corner of our city, creating opportunities for a better life for everyone. Each and every day, United Way has a profound impact on all our lives.

United Way ensures an essential network of programs and services by providing support to nearly 100 agency partners. Each plays a vital role in our overall strategy to ensure lasting, positive change by addressing the underlying causes of our city's most challenging social issues.

United Way's priorities are determined by Winnipeggers' priorities. When you support United Way, you support programs and strategies that:

PROVIDE KIDS WITH ALTERNATIVES TO CRIME, DRUGS AND LIFE ON THE STREETS

All kids need positive role models, mentorship and healthy activities to help them succeed in school and life. United Way provides opportunities for children and youth to achieve their potential through recreation and after school programs that nurture self-esteem and confidence, promote positive behaviour and inspire a sense of belonging.

REDUCE POVERTY

Right now in Winnipeg, 136 000 people – including more than 30 000 children – are living in poverty.* Since poverty is closely related to many other social issues, United Way is creating opportunities for families to build self-reliance and achieve financial independence through job skills training, financial counselling, money management and matched savings programs.

BUILD SAFER, HEALTHIER NEIGHBOURHOODS

Our quality of life is largely affected by the health of our neighbourhoods and the well-being of individuals. That's why United Way supports recreation, parenting and social programs that give people the tools and knowledge to take care of themselves, their families and their community.

A number of United Way programs round out our strategy to create permanent, positive change in our city for everyone who lives here. Following is a brief description of these programs along with a directory of our agency partners.

UNITED WAY'S ABORIGINAL RELATIONS STRATEGY

Continues to cultivate relationships and inspire volunteer participation within and between Winnipeg's Aboriginal community and the community at large. Upcoming projects include a second edition of Eagle's Eye View – an environmental scan of the Aboriginal community – as well as a survey to gauge the Aboriginal community's perceptions of United Way.

Framework is also in place for new project that will match Aboriginal leaders with organizations seeking Aboriginal participation on their boards. As well, United Way continues to play a role in an annual research and education forum involving Aboriginal peoples.

UNITED WAY'S URBAN EXCHANGE PROGRAM

Everyone is welcome to participate in this ongoing conversation about life in our city and what's important to Winnipeggers. Urban Exchange provides insight into our community's most critical social issues and gives Winnipeggers a forum to share their ideas for solutions. Opinions are gathered through questionnaires, group discussions and online activities. Results are shared widely with volunteers, staff, and community leaders in government, business,

labour and non-profit organizations. In 2009, almost 3000 Winnipeggers participated in the latest survey: Poverty: Insights and Ideas – bringing overall participation in Urban Exchange to more than 5000 since the program began.

UNITED WAY'S POVERTY REDUCTION STRATEGY

United Way is founder of, and provides office space and technical assistance to the Winnipeg Poverty Reduction Council. Guided by leaders from a variety of sectors, the WPRC has made significant progress over the past year, defining its aspiration statement (A City Where Everyone Belongs), launching a new website (wprc.ca), and approving a Framework for Action. As well, the Council has been further developing an integrated, community-wide and sustained approach to reducing poverty in Winnipeg.

ANNUAL COMMUNITY DEVELOPMENT AND COMMUNITY ECONOMIC DEVELOPMENT CONFERENCE

This event brings together people from all professional sectors, cultural backgrounds and levels of expertise, and provides a forum to share success stories and discuss challenges with respect to community development and community economic development.

UNITED WAY'S DAY OF CARING PROGRAM

A unique opportunity for workplaces, schools and organizations to help United Way agency partners complete short-term projects or

special events that contribute to the health and well-being of Winnipeg neighbourhoods. Projects range from landscaping, painting, and rejuvenating play structures to community celebrations and clean-ups. In 2008, 1151 volunteers from 97 organizations throughout Winnipeg contributed almost 6000 volunteer hours to 158 Days of Caring, building lasting relationships and strengthening connections in the community.

UNITED WAY'S KOATS FOR KIDS PROGRAM

A seasonal partnership that collects and distributes gently used winter outerwear free of charge to Winnipeg children and families. Partners include United Way, The Winnipeg Sun, CTV, 1290 CFRW, Winnipeg Fire Paramedic Service, Perth's and AMJ Campbell Van Lines.

UNITED WAY'S BUILDING BLOCKS PROGRAM

In 2008, dozens of Winnipeggers used this small grants program to bring neighbours together through block parties, barbecues, workshops and community garden projects. Ideas that provide opportunities for neighbours to connect and build safer, stronger communities are eligible for grants between \$100 and \$1000.

UNITED WAY'S GENNEXT COUNCIL

Over the past year, more than 100 business and community leaders aged 25 to 40 have made a difference in our community through GenNext activities. Much of the success followed the Council's

Red October event last fall, during which a variety of volunteer opportunities were showcased. GenNexters also participated in two Day of Caring events: organizing a holiday party for one agency partner and partnering with another for an annual neighbourhood clean-up and barbeque.

UNITED WAY'S YOUTH ENGAGEMENT STRATEGY

Encourages young volunteers to sharpen their leadership skills through a series of youth engagement activities and programs driven by the Youth Relations Council. The strategy has proven extremely effective in bringing young leaders together to help shape the future of our city and take action on important youth issues.

YOUTH LEADERS IN ACTION

Over the past three years, youth volunteers have granted a total of \$6000 in scholarships to 12 outstanding young Winnipeggers who are leading a new generation of volunteers.

SHAW UNITED WAY YOUTH CONNECTIONS

Since 2000, youth volunteers have awarded over \$116 000 in grants, resulting in 139 youth-driven projects aimed at addressing specific needs within a student's own school and/or neighbourhood.

STUDENT COMMUNITY SERVICE AWARD

Every year, close to 50 students are recognized for making significant volunteer contributions to our community.

YOUTH DAY OF CARING

In May 2009, 140 students helped 11 agency partners complete projects in several Winnipeg neighbourhoods. Over the past four years, more than 450 young people have worked

together to make Winnipeg a better place through this annual event.

To learn more about all our youth engagement initiatives, visit www.UnitedWayYouth.mb.ca

Offers youth a safe alternative to the streets 365 days a year. United Way supports a range of educational, recreational, cultural and pre-employment activities that empower youth and build their self-esteem. These include crisis intervention and counselling. Through the generosity of a United Way funding partner, an innovative music program nurtures participants' artistic talents and musical skills. A partner in the Winnipeg AssetBuilders Partnership, Rossbrook also offers money management training and matched savings programs that help individuals and families in low-income situations build their assets for long-term stability and financial independence.

Offers supports and resources for individuals and families in low-

income situations as they work toward financial independence. Programs are designed to help participants secure a job, start a small business, save money and manage their finances for long-term stability. Services include business training and planning assistance, access to loans, financial counselling, money management and matched savings programs. SEED Winnipeg also seeks to create meaningful employment opportunities and build stronger, healthier communities by connecting businesses and non-profit organizations. As well, SEED Winnipeg helps families benefit from RESP and other government incentives. Finally, as convener of the Winnipeg AssetBuilders Partnership, SEED Winnipeg provides training and technical support for 10 agency partners.

ECO GUIDING PROJECT

Offers inner city youth opportunities to train as hunting, fishing and eco-tour guides. Participants go on to create their own guiding cooperative, secure year-round employment and/or return to school during slow seasons. A total of 14 professional certificates are available through the program, including business management, money management, hunter safety, boater safety, eco-tourism essentials and wilderness survival. Graduates will give back to their community by arranging cultural outings and camping trips for inner city youth for little or no cost.

DIVERSITY FOOD SERVICES

United Way supports a new social enterprise that provides training and
